Client Responsibilities & Guidelines

General Attendance:
Attending scheduled appointments and following through with suggestions, recommendations and homework assignments are an important part of the treatment process. You are expected to attend ALL scheduled appointments on time, and to notify staff at least 24 hours in advance if you need to cancel a scheduled appointment. If three appointments are missed within a rolling 12-month period, without providing 24 hour notice, no further appointments will be scheduled for that service.

Medication Clinic Attendance:
If you miss or cancel your appointment with less than 24 hours notice, you will not be provided another scheduled appointment time, but will be provided with walk-in clinic hours for your doctor. After completion of a walk-in clinic appointment, you will be provided a future scheduled follow-up appointment. If you miss three scheduled medication clinic appointments, a 30-day prescription may be offered at the physician’s discretion and you will be discharged from medication clinic services. You will not be eligible to return for medication services for 12 months from last date of contact with medication clinic staff.

Attending ALL scheduled medication clinic appointments is required to receive prescriptions for your medication(s). We cannot prescribe medications to individuals who are not seen regularly.

To avoid having your medication clinic appointment re-scheduled, you are expected to arrive on time for your appointment. Some doctors will not be able to see you if you arrive late for your appointment.
